HOPE HOUSE

VOH maintains a guest house for short term missionary teams. VOH provides room, board, and in-country transportation at a reasonable rate. Accommodations include rooms with 2 - 4 people per room, each with private bath.

The Director of VOH oversees the mission team experience by providing opportunities for team members to visit the ministries of VOH and to work on projects that benefit the organization as a whole. These projects include tasks such as minor repairs to facilities, preparing classrooms for the new school year, Bible School, Enrichment Programs and providing Mobile Medical clinic services to surrounding communities.

To plan a mission trip or to join one already scheduled contact the Village of Hope Director director@VillageofHopeHaiti.org

HISTORY of VILLAGE OF HOPE

The people of Haiti have a proud history as the only slave colony ever to gain independence. This Caribbean nation which has faced many challenges throughout history is the poorest country in the Western Hemisphere.

In the early 1990’s a group of Christians became aware of the worsening economic situation in Haiti. Food for the Poor invited a delegation to visit Haiti. They went in response to the gospel message, “I was hungry and you gave me something to eat.” (Matt. 25:35). In response to this call, the Lazarus Project was formed in the US, with the support of Food for the Poor.

The first project chosen by the Lazarus Project was to raise prayers and funds to provide support for a new school being started by a missionary, Carol Herget. She formed, with respected business leaders, the Fondation Village de l’Espoir. The Village of Hope School has grown from 60 children and 1 building into a campus of serval buildings with 70 teachers and staff serving approximately 650 students.

The lack of affordable, available health care in the Ganthier area motivated the development and building of the Village of Hope Health Center in March 2012. The medical professionals and staff serve the student body, their families and the 70,000 residents that make up the community.

The Lazarus Project became an independent US 501c3 organization called Village of Hope, Inc. This Village of Hope ministry is made possible by a continuing partnership of VOH, Inc, the Fondation Village de l’Esper and many multi denominational and generous supporters. We are making a difference in Haiti, “one child at a time.”

VILLAGE OF HOPE SCHOOL

Village of Hope (VOH) School is located in the countryside 15 miles east of Port au Prince. The thirty acres of mountain-side overlooking the beautiful Haitian country provide VOH with ample room for its school and health center.

The school has eight buildings that house seventeen classrooms pre-K through secondary, kitchen, dining hall, chapel, showers and toilets, offices and storage facilities. All have been built by a combination of local labor and VOH project funds and work groups. The school offers quality Christian education including a mid-day meal to approximately 640 children.

Missionary Herget had a vision born out of 50 years of service with poor children. All who have watched VOH grow say what she often said, "Without the Lazarus Project’s help, such great progress in so short a time could never have happened."

HEALTH CENTER

The Health Center provides access to primary health care not only to the students, staff and teachers at VOH but to their families and community members as well. Primary Health care services include laboratory testing and pharmaceutical services, all provided by Haitian medical professionals. The current staff has the potential to serve more than 50 patients a day.

This VOH ministry of education and health care is literally the hands and feet of Christ for the children at VOH. In the name of Jesus we are bringing healing and health to God’s children in Haiti.

Thank you for partnering with Village of Hope.
